   1 8-way Joystick
   2 Buttons: Shoot & Special Weapon

The fate of the world is in your hands when you become one of the world's **Lightning Fighters.** You have been issued an order to defend the free world f enemy infiltration, and to seek out and destroy the origin of these unkn adversaries

As one of the top fighter pilots in the world, you consider yourself prepared for combat. However, in addition to battling enemy aircrafts, you will al o be engaging in air-to-ground and air-to-sea combat. Your quest will take you through many mysterious places, including islands, snow-covered landscapes, oceans, and deserts, that the enemy forces have taken over. To help you terminate opposing planes, tanks, sensors, submarines, and other threats, power-ups in the form of vulcan bullets and spread bullets can be obtained. "Trigons," automatic-fire cyber weapons, can also be picked up in the course of the action to help blast away the opponents. The most powerful weapons, the "particle beam" and "dragon laser" are also available to help terminate every enemy on screen. You must use your best aerial maneuvers to avoid the barrages of enemy fire that you will face.

Once you have fought your way around the world to find the headquarters of the unknown foe, get ready for the ultimate battle. If you can annihilate the headquarters, the impending domination of the earth will be eliminated, and peace will reign. This mission will take you through 9 stages. If you complete the mission, the game repeats with more difficulty.
